North West based Northern Case Management choose Securemarques CCTV & Fingerprint Access Control to increase security for

Northern Case Management

Occupational Therapy & Case Management

Northern Case Management (NCM) was established in 1997 to provide support to people with acquired neurological damage (i.e. brain and spinal cord injury) and empower them to develop their full potential and enrich their lifestyle through providing a comprehensive Client focused service. Since 1997 NCM has continued to expand to meet the increasing requirement

for case management services and now boasts a multi-disciplined team of 9 managers and support staff at head office and manages over 60 care/support workers on behalf of Clients. NCM is determined to continually develop in order to provide intervention for as many people as possible. Securemarques are pleased to have

completed a security program that includes the latest Fingertec fingerprint access control and two high resolution CCTV systems with remote access

A Grand Day Out - Securemarques enjoy a special day out at Rockingham

Members of the Securemarques team were invited to a very special day out indeed, at Rockingham Race Track, driving and riding some of the fast cars available today, some

very rare such as the Mercedes-Benz SLR McLaren 722 GT, the Audi R8, Peugeot 407 XV8R, Alfa Romeo Brera (Prodrive) Many thanks to the MIA for a fantastic day out.
